## Investment Instruction

Please complete these instructions in **BLACK INK** using **CAPITAL LETTERS** and **✓** boxes where provided.

Use this form to

- switch between existing investment options or re-weight your investment portfolio;
- change your Standing Instructions; or
- set an Automatic re-weight instruction to your portfolio.

Please note that when changing investment options you will not necessarily have the most recent product disclosure statement for that investment option and accordingly may not have information about material changes and significant events affecting that investment option. You can obtain a product disclosure statement from [myexpand.com.au](http://myexpand.com.au) or your licensed financial adviser.

To ensure the investment option selections are listed correctly please add the APIR code along with the name of the investment option. Please refer to the Expand Extra **Investment Menu** for available APIR codes.

Fixed Term Annuities cannot be purchased using this form and can be purchased online or by contacting us.

Some investment options can only be purchased where you have a financial adviser. Please refer to the Investment Menu for further details.

If you are invested in a MDA model via a financial adviser and need to make changes to your MDA model please contact your financial adviser.

Any investment redemptions will be done in accordance with your existing tax optimisation method. To view and update your chosen method, please speak to your financial adviser or log into Expand Online.

### Step 1: Client details

Account number	<input type="text"/>
Account name	<input type="text"/>
Date of birth	<input type="text"/> / <input type="text"/> / <input type="text"/>

Please refer to the below summary as a guide to which sections you may need to complete:

- Step 2: Pending transactions
- Step 3: Investment redemptions

- Step 5: Deposit Instruction
- Step 6: Re-weight portfolio (including establishing an automatic re-weight facility)

### Step 2: Pending transactions

To provide you with an efficient service we will not wait for pending transactions to complete before we process your instructions.

If you have a pending transaction (a redemption or purchase) currently in progress at the time we receive new instructions (Step 3: Investment redemptions, Step 4: Investment purchases or Step 6: Re-weight portfolio) it may result in a variance to your instruction and your request may not be fully completed. This may result in a balance remaining in an investment where you intended to redeem 100%.

By ticking the box below you can instruct us to wait for all pending transactions on investment options included in your new instructions to complete before we process your instructions.

☐ You acknowledge your request will not be actioned until all pending transactions on investment options included in my new instructions are completed.

### Step 3: Investment redemptions

#### Managed investments and SMA Model Portfolios

Please specify either a percentage, unit or dollar allocation. Unless otherwise stipulated, we will process the switch as a dollar value.

If you wish to sell a specific asset and use the proceeds to purchase another asset, indicate this by placing corresponding numbers in the boxes provided. When not specified, we will sell all assets detailed in Step 3 and use the proceeds as per the instructions in Step 4.

**Please note:** Your Deposit Instruction and Cash Account preferences will not be automatically updated to reflect the purchase or redemption of a managed investment option from your account. If you want to change your Deposit Instruction and/or Cash Account preferences, please ensure you complete Steps 5 and 7 respectively.

Please advise us of your Deposit Instruction.

☐ 100% Cash Account

OR

☐ Deposit Instruction (please complete section below)

Please note:

- Please ensure that the Deposit Instruction includes at least the default minimum allocation of 1% against the Cash Account. The percentages allocated to the Cash Account and your selected investment option(s) must add up to 100%.
- For a full list of investment options available for selection within Expand Extra go to our website to view the **Expand Extra Investment Menu** and list your selections in the space provided.
- To ensure the investment option selections are listed correctly please add the APIR code along with the name of the investment option.
- Maturing investments (term deposits and fixed-term annuities) and listed investments cannot form part of your Deposit Instruction. Please refer to Step 4 to specify these instructions.

## Step 6: Re-weight portfolio

Please specify the type of re-weight you wish to occur.

☐ One-off re-weight

OR

☐ Automatic re-weight facility

OR

☐ Re-weight now and update Automatic re-weight instruction

If establishing an Automatic re-weight facility please specify the re-weight frequency and commencement date.

### Automatic re-weight frequency

Use this to automate a re-weight of all the investments in your portfolio, according to a percentage-based instruction at a set frequency.

(Choose one)

☐ Quarterly      ☐ Half yearly      ☐ Yearly

## Commencement date

(will commence on the 20th of the chosen month).

M	M	/	Y	Y	Y	Y
---	---	---	---	---	---	---

## Re-weight Instruction

☐ Deposit Instruction: re-weight my portfolio in accordance with my deposit instruction in **Step 5**.

OR

☐ Re-weight Instruction: re-weight my portfolio in accordance with the re-weight instructions specified in the table below.

If you have selected the Re-weight Instruction option, please specify which investments are to be used and the respective allocations. Please list all investments in your portfolio below.

[illegible]

**Important note:**

- Maturing investments (and investments which cannot be sold) cannot be traded as part of your re-weight; however they need to be included in your re-weight instructions to ensure your portfolio allocation equals 100%. The re-weight preference submitted will be applied to the remaining investments within the portfolio. In some instances, investment options that cannot be redeemed on a daily basis will not be able to be included in your Automatic Re-weight Facility.
- You can only include a Separately Managed Account (SMA) Model Portfolio if you have already acquired an interest in that SMA Model Portfolio via your financial adviser.
- If your portfolio currently has investments held in a Managed Discretionary Account (MDA) model, then you cannot use the automatic re-weight facility for your account.

## Step 7: Cash Account preferences

### Cash Account limits

You must maintain a minimum percentage allocation to the Cash Account.

Please specify one of the following options:

☐ **Cash Account minimum of 1%**

OR

☐ **Cash Account percentage nominated in your Deposit Instruction**

OR

☐ **Custom Cash Account minimum of**  %

### Cash Account dollar-based minimum (optional)

You may also nominate a dollar-based minimum on the amount held in your Cash Account (subject to a \$5,000 minimum) that will be used in conjunction with your percentage-based minimum stated above.

If your Cash Account falls below zero, we will then top-up your Cash Account to the lower of your dollar-based minimum or percentage-based minimum.

To set a Cash Account dollar-based minimum, please specify the amount here

\$

### Cash Account top-up

If the balance in your Cash Account is zero or below, the Trustee/Service Operator will top up the balance to the lower of

- the percentage allocated to the Cash Account (1% default amount),
- the percentage nominated in your Deposit Instruction, or a percentage nominated by you); or
- your nominated dollar-based minimum amount.

We will top up your Cash Account balance by redeeming the necessary amount from your managed investments (without prior notice to you) in accordance with the method you have selected below:

☐ **Pro-rata (default option)** – Redeem funds across all managed investments, SMA Model Portfolios and MDA models according to the proportion of the portfolio that they represent.

OR

☐ **Redemption instruction – percentage** – Redeem funds from managed investments, SMA Model Portfolios and MDA models according to the percentage allocation nominated below.

OR

☐ **Pecking Order** – Redeem funds from managed investments, SMA Model Portfolios and MDA models according to a prioritised list specified below.

If you don't indicate a top-up method, the default option of pro-rata will be applied.
